Company Description: Infillion is the first fully composable advertising platform, built to reduce complexity, waste, and opacity in digital media. Born from the unification of category-defining technologies, including MediaMath, TrueX, Gimbal, Drawbridge, and Catalina, Infillion connects demand, supply, data, and creative in a single platform with the transparency of the open web and the scale of walled gardens. Powered by exclusive deterministic purchase intelligence, Infillion enables verified, purchase-based targeting and optimization across the consumer journey through a composable infrastructure that serves media buyers and sellers, agencies, retailers, commerce networks, and enterprise clients. Whether through white-glove managed service, self-service, or agentic automation, Infillion empowers businesses to execute their unique strategies with zero-hop efficiency, proprietary AI logic, and radical data transparency. Headquartered in New York City, Infillion drives infinite outcomes from attention to action.
