Company Description: A-Gas is the world leader in the supply and lifecycle management of refrigerants and associated products and services. For over 30 years, through our first-class recovery, reclamation, and repurposing processes, we have been capturing refrigerant gas for future re-use or safe destruction, preventing its harmful release into the atmosphere. Our unique Rapid Recovery service is comprised of a network of EPA-Certified technicians who go to store locations, recover refrigerant racks, deliver EPA documentation, and then provide our customers with a commitment to provide a matching volume of AHRI-certified refrigerant gas. This assurance gives grocery stores the peace of mind that they can get the refrigerants they need in a tightening market.

Company Description: Advantage Solutions was formed in 1987 on founder Sonny King's vision of building a national sales and marketing agency focused on unparalleled service, customized solutions, and outstanding results. Today we are the leading sales and marketing agency in the industry with a workforce of over 40■,000 talented associates generating over \$65B in sales.

At Advantage Solutions, we're the unseen architects behind your everyday purchases. From pantry staples to your online shopping carts, we ensure your favorite goods are always in stock and within reach by connecting manufacturers to the right retailers and teaming up with retailers to figure out the best ways to get those products into your hands. We specialize in elevating brand presence, enhancing retail strategies, and creating memorable brand experiences.

Our purpose is to connect people with products and experiences that enrich their lives. How do we do that? Through our mission: to generate demand for consumer brands and retailers, converting shoppers into buyers in every way they shop, and our values: Put People First, Serve with Heart, Lead with Insights, Execute Relentlessly and Win Together.

Company Description: Afresh is the world's leading fresh technology company helping grocers make smarter decisions throughout their fresh supply chain, ultimately increasing profits and significantly reducing food waste.

Success in fresh relies on making good decisions with incomplete, ever-changing, and uncertain information — realities inherent and inevitable in fresh grocery. Legacy systems and practices for managing fresh inventory are not built to recognize or respond to this reality. Many grocers today are stuck betting their most strategic category on brittle technology and convoluted labor practices, leading to increased costs and reduced quality for consumers.

With Afresh's built-for-fresh approach, more than 3,000 stores are seeing incredible results, on average:

- +3% sales increase
- +20% improvement in labor efficiency
- 25% shrink reduction
- 80% stockout reduction
- +7% faster inventory turns

Company Description: Innovation and a focus on the future since 1983. AHT Cooling Systems GmbH has been operating successfully in the field of commercial refrigeration for more than 30 years. During this time, our ceaseless pursuit of innovation has allowed us to continuously push the envelope in our industry for the benefit of our customers – today and in the future.

At the AHT headquarters, the heart of our company, our cutting-edge cooling systems are designed and produced on a production area of more than 60.000 m2. More than 200.000 units leave our headquarters every year.

We are one of the world leaders in our main area of business – the production of plug-in coolers and freezers for the commercial sector. Our systems are delivered to all major global discounters and supermarket chains as well as a number of renowned producers in the ice-cream and drinks industry via successful partnerships. Our overarching philosophy is built on the pillars sustainability, energy efficiency, innovation and maximum customer benefit.

Our awareness for quality and environmental consciousness is not only confirmed by our ISO certifications 9001 (Quality management) and 14001 (Environmental management) – we live it continuously through our resource-conserving production processes and ecologically-minded products, every single day; for we will always strive to fulfill the high expectations our customers have in our products and the brand AHT.

Company Description: The Alaska Seafood Marketing Institute is a marketing organization with the mission of increasing the economic value of the Alaska seafood resource through:

- Increasing the positive awareness of the Alaska Seafood brand;
- Collaborative marketing programs that align ASMI and industry marketing efforts for maximum impact within the food industry;
- Long-term proactive marketing planning;
- Quality assurance, technical industry analysis, education, advocacy and research;
- Prudent, efficient fiscal management.

ASMI is a public-private partnership between the State of Alaska and the Alaska seafood industry established to foster economic development of a renewable natural resource. ASMI is playing a key role in the repositioning of Alaska's seafood industry as a competitive market-driven food production industry. Its work to boost the value of Alaska's seafood product portfolio is accomplished through partnerships with retail grocers, foodservice distributors, restaurant chains, foodservice operators, universities, culinary schools, and the media. It conducts consumer campaigns, public relations and advertising activities, and aligns with industry efforts for maximum effectiveness. ASMI also functions as a brand manager of the Alaska Seafood family of brands.

Products / Services: Security Systems & Products

Company Description: ALL-TAG is an American manufacturer of Anti-Theft products that help retailers reduce common and ORC theft while boosting sales. We are the market leader in customizing products to include individual store specific information to aid in the recovery and return of stolen merchandise. These products are virtually impossible to remove from merchandise packaging, and will permanently damage the packaging if they are forcibly removed. Retailers can protect their merchandise while making it accessible to shoppers, which is critical for maximizing sales. The cost of these products is extremely low when compared to lock boxes, keepers, spider wraps, shelf protectors, etc. All of these factors lead to a quick and substantial ROI. ALL-TAG manufactures RF Labels in their South Florida facility, and is a leading supplier of AM labels. Top retailers and their Source Tagging partners around the world are using ALL-TAG RF and AM Labels to protect their merchandise.

Veesion Pro, also provided by ALL-TAG, is intelligent video surveillance software that continuously analyzes any retailer's cameras. The software automatically detects suspicious shoplifting behavior and gestures in real time with algorithmic analysis of video footage. A video notification is immediately sent to store personnel providing the retailer an opportunity to prevent theft and ORC while it is happening.

Veesion is an enhancement to any video surveillance system as it is the equivalent of having a set of eyes on every camera in a retail store. Furthermore, it does so for the fraction of the price of a video room monitor and with much greater accuracy.

Company Description: ARC solves operational challenges faced by companies who have large investments in handheld devices (i.e., devices by Zebra, Honeywell, etc.), which associates use to be productive for tasks like package/baggage scanning, inventory check, mobile PoS, etc. We've learned from clients that managing handheld devices is a nightmare -- they're experiencing surprisingly high device shrink, wasted time managing manual processes, and lost productivity when devices stop working, go missing, or batteries die.

ARC is a device management solution integrated with smart lockers to store, secure, and charge these company-owned handheld devices. ARC reduces device shrink, hits to productivity, wasted payroll time consumed by managers, and the number of faulty devices in circulation.

Company Description: We reach hard-to-reach affinity groups like Latinas or Millennials. We drive traffic via inspiring real life product stories promoting new items. We amplify demos to spike sales outside the 4-6 hour demo period. We make new store openings incredibly successful. And we do all this by using social media to solve shopper marketing problems.

CB harnesses the power of social content through our community of geographically and demographically diverse social influencers who have micro audiences centered on specific affinities and passions. They have incredible reach and their content generates high levels of engagement with value-conscious shoppers; this content gets deployed across all social channels and initiates two-way conversations directly with customers to influence purchase decisions.

This is shopper social media and CB is the only one who does it.

Company Description: Digital Wave Technology delivers the AI-native ONE■ Platform, built from the ground up to unify product, customer, and operational data across grocery and consumer goods organizations. At its foundation is real-time Master Data Management, providing a single source of truth that accelerates decision-making and execution.

With ONE, companies can:

- Automate enrichment with GenAI and Agentic AI, generating accurate product attributes, descriptions, and campaigns in real time
- Unify enterprise data across merchandising, pricing, promotions, assortment, and supply chain in one connected platform
- Adapt quickly to shifting shopper behaviors, competitive promotions, and supply chain disruptions
- Streamline execution with automation that eliminates lag time, reduces complexity, and lowers costs
- Rapidly develop applications that extend capabilities, connect cross-functional workflows, and meet evolving business needs without lengthy IT projects

The ONE Platform unifies PIM, MDM, Lifecycle Pricing, Promotion Planning, Deal Management, and Category Management into one extensible environment. It also includes a governed Data Science Studio for developing and deploying AI models securely, enabling innovation at scale.

Organizations running on ONE move faster, operate smarter, and capture more growth.

**Company
Description:**

Established in 1918 by its founder Mr. Mario Dorin as manufacturer of mechanical tools and machines, air compressors, liquid pumps and service centre for vehicle engines, OMD in 1932 focused on production of refrigeration compressors and their systems. Soon this became the major field of work of the company.

The genius of the Founder together with his mechanical skills, his entrepreneurial capacities, supported by the seriousness, commitments and professionalism of his sons, grandsons and great-grandsons, are the base of the development of the company, becoming a global reference in refrigeration.

OMD celebrated in 2008 its 90th anniversary from the establishment, being since then always under the same family name. This makes of Dorin the oldest family ruled firm, globally speaking, in the field of refrigeration, with all the consequences in stability, reliability and commitments towards the customers.

The human factor, coupled with a permanent technological development and with a constant deep research of the best result, lead the Company to become one of the leader name in refrigeration market.

DORIN, historical manufacturer for refrigeration compressors, has always been a leader in reliability and Environmental respect for its products. At present times, DORIN is giving a determinant contribution to technological innovation of semihermetic compressors placing itself as reference manufacturer for the highest technological content compressors.

Company Description: Freight Handlers, Inc. provides unloading services to the retail grocery, general merchandise and food service industries. Additional labor resources are also provided -freight hauling, case selection, pallet sorting, and trailer switching.

FHI is the quality leader in the professional unloading industry, providing the best overall cost, given competitive pricing and exceptional operational performance. FHI's company-paid benefits and competitive production-paid earnings result in quality employees, low turnover and superior service to our customers.

Information is the key to lowering your supply chain costs. Detailed management reports identify component costs that can be reduced or eliminated. Our direct invoicing relationships, with vendors and carriers, ensure the lowest cost supply chain solutions where everyone wins.

When you decide to partner with FHI, you can eliminate the hassles of independent lumpers, improve dock safety, and achieve a new level of dock productivity which is being enjoyed today by the two largest, privately-held grocery retailers in the USA.

Company Description: Before being served, coffee passes through forty pairs of hands in its journey from sowing to an espresso cup. Behind every one of these exchanges, there is a different culture, a face, a story to be told. 40 Hands is a journey to discover the people who have decided to dedicate their lives to their passion for coffee. The coffee journey follows a path that unfolds through generations and latitudes, united by the same values: "Respect, dedication and responsibility, especially towards nature," says Enrique Mancilla Oyos, a Peruvian farmer who has been working with Lavazza for years. His ancestors processed coffee at Nagazú, but at the time there were no roads, so production was limited to the needs of the family.

Company Description: Four Generations and more than 60 years later, Maple Leaf Farms duck continues to create culinary experiences from the kitchen table to restaurants around the world. Our farm to fork focus and vertical integration ensures that you are getting the tastiest duck in the most sustainable and humane way possible.

We knew from the start that treating our ducks right is our top priority. That's why we put care into every step of farming, feeding, and processing. We keep our ducks as happy and healthy as possible at our farms. They eat a healthy balance of grains and veggies and are free to roam in cage free barns. We knew this was a priority from the start, so we developed the first and only duck well-being guidelines with veterinarians and poultry scientists from all over the country.

Our Trident Stewardship Program is the leading duck care program in the world.

Company Description: Marketing Management Inc. (MMI) is a sales and marketing company focused on consumer packaged goods with brand owners and manufacturers of brands.

Our suite of services is offered through a collection of companies dedicated to specific functions along the lifecycle of consumer packaged goods. Our focus is not only with new and emerging brands wanting to gain initial distribution into the marketplace, but also with brands that have successfully entered the consumer retail space, but need assistance in managing their business.

We help clients plan for expansion across all of North America, including Canada and Mexico. We can start early in the lifecycle with initial brand development, sales planning and the communication of your product's unique selling propositions (USPs), which we validate through consumer research. Or we can enter the journey after critical distribution has been achieved and your business needs more attention to take advantage of market place opportunities.

Whether you are an emerging brand looking to compete or an existing mid-tier relevant brand wanting to expand... our organization can guide you along the journey of success. MMI is YOUR TRUSTED RESOURCE for SUCCESS.

Company Description: The Molson Coors Beverage Company is a multinational brewing company, formed in 2005 by the merger of Molson of Canada, and Coors of the United States. It is the world's seventh largest brewer by volume

While the company is incorporated in the United States, it is traded on stock exchanges in both the United States and Canada, and control is equally shared between the Molson and Coors families. The company is headquartered at 1801 California Street, a 1,372,179-square-foot (127,479.6 m²), 53-story building formerly known as the Transamerica Tower in Denver. It occupies 67,000-square-foot (6,200 m²) of space located on the 45th, 46th and part of the 47th floors of the structure.[7][8]

Molson Coors expanded significantly after the merger of Anheuser-Busch InBev and SABMiller in October 2016. This was achieved because during the plans for the merger, SABMiller had agreed to divest itself of the Miller brands by selling its stake in MillerCoors to Molson Coors.[9]

Company Description: Since 1942, the Musco Family Olive Company has been focused on providing the highest quality olives to the foodservice industry. Nearly 80 years later, we're prouder than ever to supply many of the California Black Ripe and Sliced Olives found in restaurants across the country.

The California Difference

As the only 100% California-owned, family-run full-line olive business in America, the Musco Family Olive Company is known for outstanding, uncompromising quality. Our supply chain has been the same for decades, anchored by long-term relationships with multi-generational California farmers. Our black ripe olives are sourced from over 450 California growers — each one a valued member of our extended family. Our process is completely transparent, resulting in consistently superior-quality olives from tree to table. Our competitors, on the other hand, mix and match different types of olives from a variety of countries, resulting in inconsistent textures and flavors.

Imagine breaking from tradition to ensure a brighter future for generations to come. At Nature Fresh Farms®, we're committed to nourishing people and the planet through greenhouse farming.

Since 1999, our family-owned company has sought a simple yet profound goal: To cultivate a kinder, healthier future. And decades later, we've become one of North America's largest vertically integrated leaders in greenhouse-grown produce. We're growers, for sure, but in more ways than one – greenhouse builders, plant nurturers, and partners with like minds and kindred spirits.

Our vision goes far beyond our current accomplishments ... we are committed to innovation and conservation, to reduce waste and promote biodiversity, and to create a friendlier future for all.

Company Description: Since our founding in 1971, Nihon Shokken Group has accomplished continuous growth and has become internationally distinguished. As we continue to expand, we aspire to promote the development of “deliciousness” and “convenience” in food culture through the research, production, and sales of sauces and seasonings.

Nihon Shokken Group began American operations in 1988 with opening its Los Angeles Sales Office in Torrance, California. As a subsidiary of Nihon Shokken Holding Co. Ltd., the company initially imported and distributed sauces and seasonings made in Japan throughout the U.S. Great reception of our products allowed our company to open other branches nationwide which encouraged the foundation of Nippon Shokken U.S.A. in 2006.

In April 2013, after being captivated by the beauty of the region’s resources and surrounding food culture, the newly named company established roots locally through building a new manufacturing facility in West Sacramento and started domestic production of products in June 2013. From this 70,000 square foot head office and plant, we produce fresh, high quality products for our valued customers as we embark on furthering and delivering new innovations to food culture in the U.S.

**Company
Description:****About Oberto Snacks Inc:**

You could say Art Oberto was born to make jerky, but truth is, he didn't actually take over the family business until he was sixteen. Every day before school, Art would ride his bike to deliver the finest cured meats anyone in the Seattle area had ever tasted. As a company, we've changed a lot since those humble beginnings, but the way we make our delicious all-natural jerky hasn't. We still hand-select each ingredient and compose our rich, smoked flavor from a harmonious mixture of delicious hardwoods. And Art still won't put his name on the outside of a single package, unless he approves of everything that went into it.

Today Oberto Snacks Inc. provides innovative, delicious, healthy and convenient protein-packed snacks. Employing more than 500 food professionals, Oberto's mission is to empower people to make better choices for a healthier and happier life.

Company Description: Established in 1918 by its founder Mr. Mario Dorin as manufacturer of mechanical tools and machines, air compressors, liquid pumps and service centre for vehicle engines, OMD in 1932 focused on production of refrigeration compressors and their systems. Soon this became the major field of work of the company.

The genius of the Founder together with his mechanical skills, his entrepreneurial capacities, supported by the seriousness, commitments and professionalism of his sons, grandsons and great-grandsons, are the base of the development of the company, becoming a global reference in refrigeration.

OMD celebrated in 2008 its 90th anniversary from the establishment, being since then always under the same family name. This makes of Dorin the oldest family ruled firm, globally speaking, in the field of refrigeration, with all the consequences in stability, reliability and commitments towards the customers.

The human factor, coupled with a permanent technological development and with a constant deep research of the best result, lead the Company to become one of the leader name in refrigeration market.

DORIN, historical manufacturer for refrigeration compressors, has always been a leader in reliability and Environmental respect for its products. At present times, DORIN is giving a determinant contribution to technological innovation of semihermetic compressors placing itself as reference manufacturer for the highest technological content compressors

Company Description: Inspired by the need for a collective voice of the plant-based foods industry and representation in government, The Plant Based Foods Association was created in 2016 by our founding board members, Jaime Athos, Martin Kruger, Nicole Sopko, Miyoko Schinner, and Michael Lynch, and founding executive director, Michele Simon. The Plant Based Foods Association officially launched at Natural Products Expo West with 23 member companies in March of 2016.

The board, founding executive director, and these 23 brands were the pioneers of PBFA. Each company believed in the path of exponential growth and vision of the plant-based foods industry, and this created the foundation for PBFA's post-launch accomplishments and current successes.

Products / Services: Technology Services

Company Description: Retail Insight is a leading provider of in-store execution software for grocery retail. We help retailers tackle some of their biggest challenges, including product availability, food waste management, labor productivity, and phantom inventory.

We believe that successful solutions are built on a fundamental understanding of the nuances and complexities that come with the retail industry. This is why we use cognitive technology; the augmentation of human subject-matter expertise and analytics with advanced mathematical techniques.

Our software solutions ingest a retailer's foundational data to surface actions for your in-store teams as well as provide all-level reporting. As a result, we seamlessly integrate with your existing tech stack, require little IT investment or change management, supplement existing inventory and ordering systems and carry little to no capital investment.

As a result, we now work with many of the world's leading grocery retailers and CPGs.

Company Description: Two of the most trusted household brands, Reynolds® and Hefty®, joined together as Reynolds Consumer Products in 2010. While the establishment of this new company made it official, the truth is that Reynolds® and Hefty® products have been found side-by-side in the kitchens of American families for more than three generations.

The creation of both the Reynolds® and Hefty® brands is the direct result of American ingenuity mixed with a bit of elbow grease. Reynolds Wrap® foil was invented after aluminum was no longer needed for military use; and became a new staple for American kitchens. Hefty® waste bags were first developed with excess material from an early plastics innovator, creating another household essential.

Company Description: We've been in your shoes. We've experienced your frustration. The Allan Sullivan Co. was born when we set out to change it. We built the brokerage to provide the value we wish we got when we were in your position.

Over the course of our careers, we've led everything from category and trade marketing to national account teams and business units in excess of \$1B. We've been on the manufacturer side of the table and the retailer side of the table. We've been at large multinationals and small startups.

No matter where we were, we kept being underwhelmed by the quality of the manufacturers reps we ran into. Even the ones we hired – we were always left wanting more. How was it possible that such a critical part of the value equation could come up so short so often?

Company Description: Too Good To Go was founded in 2015 in Copenhagen by a group of young entrepreneurs who shared a dream of finding a solution for the massive amounts of food wasted by buffet restaurants in Denmark. Driven by their passion, they set out to create an app that would connect food businesses with people who were seeking to help solve the climate crisis, get access to good food, and save money.

The Too Good To Go marketplace app launched in Denmark early in 2016 and became an instant hit. In the first few weeks hundreds of businesses uploaded their surplus food to the app and thousands of users started saving it.

Products / Services: Construction; Consulting Services; Energy Management; Equipment; Store Design

Company Description: SESCO® is the U.S. leader in providing equipment, engineering, commissioning, and energy management services for supermarket and restaurant HVAC systems. SESCO® has helped more supermarkets qualify for ENERGY STAR criteria than any other company in the United States.

SESCO® is recognized by industry and government for its expertise and continuing contributions to energy management through applied leading edge technologies within the supermarket HVAC discipline. SESCO® participates with industry and government to further energy management technology through the ENERGY STAR Program and other "Green Building" initiatives. SESCO® is publicly acclaimed for its contributions to the industry by major supermarket chains and the Environmental Protection Agency.

The goal of the SESCO® Program is to ensure the HVAC systems SESCO® provides commission as close to their design point as possible. As most customers can attest, strip shopping center construction does not always produce the best possible results and the owner ends up paying for deficiencies in the form of unnecessarily high energy bills. Broad application of the SESCO® Program to new store development and remodel programs produces significant reductions in operating costs associated with energy and maintenance.

SESCO® has completed more than 3,000 supermarket projects over the past 20 years. Our commitment to continuous process improvement throughout our history has resulted in the most experienced knowledge base regarding supermarket environments of any company in the United States.

Thermal Resource Solutions specializes in complex, custom, and energy-efficient mechanical and plumbing systems. We provide best-in-class application engineering and equipment services tailored to individual client needs. We approach a project from a systems perspective rather than an individual equipment perspective. We understand how all equipment components interact and strive to provide the best total system with the highest efficiency and the lowest life cycle cost.

We have a full-service division of factory-trained and certified technicians to perform equipment start-up, maintenance, warranty, and commissioning services.

Thermal Resource Solutions provides exclusive representation and sales/services for commercial and industrial HVAC and plumbing equipment manufacturers in North Carolina, South Carolina, and Georgia.

Company Description: UEP's first organizational meeting was held in Chicago on November 12, 1968 at which time egg producers from across the U.S. recognized the need for a regional cooperative organization to address the needs of the industry. Thus, five regional offices were created: Midwest UEP, Southern UEP, North Atlantic UEP, West Coast and Northwest United Egg Producers. A federated Capper-Volstead Agricultural Cooperative was structured with membership available to producers who are engaged as a farmer in the production of table eggs. Membership is also available to owners of breeder flocks, hatcheries, pullets growers, contract egg producers, and farm cooperatives that meet the requirement of owned or leased facilities.

In October 1998, the by-laws of UEP were amended thereby changing the organization to a direct member organization.
