<p>Advanced Refrigeration Systems</p> <p><i>www.advancedracks.com</i></p> <p>Mark Baumgardner 916-825-8268 mark.baumgardner@rsiclimate.com</p> <p>Advanced Refrigeration Systems is an industry-leading manufacturer of energy-efficient refrigeration systems for industrial, distribution, food processing, post-harvest and retail grocery applications. Advanced product features include heavy-duty, fully welded steel frame construction and variable frequency compressor operation with enhanced compressor protection. From project concept through our full engineering and drafting services, Advanced offers exceptional customer service and support along with optimum product life cycle value.</p>	<p>AHT Cooling Systems USA</p> <p><i>www.ahtusa.net</i></p> <p>Howell Feig 843-767-6855 howell.feig@us.aht.at</p> <p>AHT is an innovative global technology leader in the field of plug-in refrigeration and freezing solutions - which focus on high quality, low maintenance, and flexibility to drive retailer sales. AHT offers some of the most energy-efficient and eco-friendly solutions, including R290. New products include semi-verticals and frozen doors and full store systems.</p>
<p>Airius LLC</p> <p><i>www.airiusfans.com</i></p> <p>christian Avedon 303-772-2633 Christian.avedon@airiusfans.com</p> <p>Airius Fans has been involved with the retail industry for over a decade by providing high-efficiency turbine fans engineered to efficiently balance temperatures, mitigate fogging on glass doors, minimize slipping risks, increase customer and staff comfort, and decrease usage and wear on HVAC systems.</p>	<p>Air-Row Fans</p> <p><i>www.airrowfans.com</i></p> <p>Tom Noonan 317-574-1009 tomn@airrowfans.com</p> <p>Air-Row Fans has a long and successful history of solving problems for supermarkets -- hot and cold spots, wet floors, air and heat loss. Our fans rotate and re-distribute air for comfort while producing 25% or more in energy savings. Our fans capture and treat this unused air and push it to the floor to even temperatures. In the process, your HVAC system is allowed to cycle down, yielding significant energy savings.</p>
