

Concurrent Breakouts – 2012 FMI Energy & Store Development Conference

Monday, Sept. 10	Grand Sonoran H-I	Grand Sonoran J-K	Wildflower A	Wildflower B	Wildflower C	Pinnacle Peak 1
10:45 – 11:45 am	Innovations in Temperature and Defrost Control Strategies (R)	Refrigerant Retrofit Process and Strategy (R)	Preventative Maintenance (E)	HVAC Design (E)	Energy vs. Merchandising (E)	Construction Design through 3D Modeling (D/C)
1:30 – 2:30 pm	Innovations in Temperature and Defrost Control Strategies (R)	Case Study of an Ammonia/CO2 System in a U.S. Military Commissary (R)	Supermarket Commissioning and Recommissioning (E)	Energy Rebates and Incentives (E)	Pros and Cons of Various Construction Procurement Processes (D/C)	Avoiding the Top Ten Supermarket Real Estate and Store Development Mistakes (D/C)
2:45 – 3:45 pm	Lifecycle Climate Performance of Various Refrigerant and System Options (R)	Case Study of an Ammonia/CO2 System in a U.S. Military Commissary (R)	Preventative Maintenance (E)	Energy Markets and Procurement (E)	Less is More: Getting the Best from Lean Design and Construction (D/C)	Construction Design through 3D Modeling (D/C)
4:00 – 5:00 pm	Store Development Trends, Concepts and Formats (D/C)	Refrigerant Retrofit Process and Strategy (R)	Supermarket Commissioning and Recommissioning (E)	HVAC Design (E)	Pros and Cons of Various Construction Procurement Processes (D/C)	Avoiding the Top Ten Supermarket Real Estate and Store Development Mistakes (D/C)
Tuesday, Sept. 11	Grand Sonoran H-I	Grand Sonoran J-K				
1:30 – 2:30 pm	Less is More: Getting the Best from Lean Design and Construction (D/C)	Lifecycle Climate Performance of Various Refrigerant and System Options (R)				
2:45 – 3:45 pm	Store Development Trends, Concepts and Formats (D/C)	Energy vs. Merchandising (E)				
4:00 – 5:00 pm	Energy Markets and Procurement (E)	Energy Rebates and Incentives (E)				

Breakout Legend:

R (black): Refrigeration
 E (green): Energy
 D/C (blue): Design/Construction
