**HARVEST  
SUN  
FARM**

Harvest Sun Farm is a fifth-generation family farm located in New Knoxville, Ohio in bucolic Shelby County. Our family has been farming our ground since 1893. We are a 22-acre farm, raising delicious certified organic produce and flowers for our local community. We grow great food with the use of cover crops, crop rotation, and unique variety selection in order to deliver the healthiest, freshest vegetables possible to our customers.
